

Death record of John Henry Heinz

The church records are in "German Latin," and the English "John Henry" was written "Johannes Henricus." Johannes was abbreviated as "Jo'es." Given the date of death and years of age, this person was born in 1780. The christening record of John Henry Heinz was 1782. However, John Henry Heinz was called deceased in the 1842 marriage record of his daughter Anna Margaret Heinz, and there is no other John Henry Heinz in the death record before or during 1842. Therefore, this death record is certainly for our John Henry Heinz. Also, John Henry Heinz's son, George Heinz, married five months later and emigrated to America, a not uncommon sequel for a son following his father's death.
